I only think about you, when I'm hard  
I only dream about you, when I'm hard  
My heart is forever, forever burned  
I only dream about you, when I'm hard

Chorus:

Hey you, I'm just like everybody  
Hey you, I am a little naughty  
Hey you, I'm just like everybody  
Hey you, I am a little naughty

I thought you might would make me, give it away  
I thought you might would make me, take it away  
I thought you might would make me, delay

(Chorus)

I'm only using you for your sex  
I'm only using you, you stupid bitch  
So stopping giving me a complete

You're the trash in the back of my mind  
You're the trash in the back of my fucking mind  
You're the trash in the back of my mind  
You're the trash in the back of my fucking mind  
You're the trash in the back of my mind  
You're the trash in the back of my fucking mind  
You're the trash in the back of my mind
