Horror, Lucifer solutus,  
Anguis a catenis suis liberatus.  
A sparkling shade of hate embraced the whole  
Horizon.  
A shadow of horror is risen  
The Sun is bent.  
Consumed with deepest sins.  
Terror rains from the skies.  
De caelo pluit terrore,  
Igne et aestu, igne ardenti,  
In fornacem ignis aeterni.  
Abyssus umbras suas ingentes  
lacet in latera adamantea.  
Nos devorat lux repercussa.  
Above your visions, a circumradiant Sun,  
And in your Eyes, vibrant with echoes,  
A deafening and neverending commotion.  
The path of the Angel is a firmament of tears.  
Fawn blazes of fury from the First Eye of God.  
Mikhael. Raphael. Gabriel.  
Uriel. Raguel. Sarakiel.  
Moloch. Chamos. Baalim. Astharoth. Astarte.  
Belial. Beelzebub. Apollyon.  
In Inferno reigned the enchanters of pain.  
We write the scriptures of moans.  
We spread the spawn of Despair.  
Shaitan Lucifer  
Lucifer, qui mane oriebaris.  
Kill me for Thy Name's Sake.  
Omega and alpha, the last and the first,  
He that liveth through death and life inverted.  
Hell was not so dark a labyrinth to hide his face,  
Admire it scarred by lightnings.  
For Thee I beheld no Mercy Seat of gold...  
But the screams of Heaven crucified.  
In profundis tenebrarum  
Aurei cruentique solis occasus.  
Dominus fletum e Styge hausit,  
Solus beryllus continet lucentes illas lacrimas.  
Dominus fletum e Styge hausit,  
Tamen in eius profundis  
Abyssus abyssum invocat.

The Light echoes the Light.  
The dead envy the dead.  
Our burned feathers cloud  
The infinite reflexion of the decentred moons.  
In the dead of the night,  
The heart of the night  
Knows a more shining star.  
Sub atro sole  
Tenebris lucet abyssus temporis.  
Domini nomen foedatum,  
Peritum regnum caelorum.  
I unname Thee, Ialdabaoth.  
Under a black sunset  
Every creature foundered  
In the petrifying abyss of Time.  
Paradise regained!  
Paradise regained!  
Paradise regained!  
We reap the fruits of glory ...  
Miserere
