Needle and thread
Needle and thread
Keep me together
Keep me together

For one I can't control it
For two I don't believe it
For three I'm counting
As the universe expands
I'm breathing

For now, I'll try to be good
For once was careful and smart
Forever looking for a miracle
I'm dreaming

Needle and thread
Needle and thread
Keep me together
Keep me together

Fortuitous, I met a man
A long tall glass of water
Force of nature brought us closer
Now I wonder where the wind blows

Fortune won't you smile in money
And in comfort, warm and sunny
Formerly I asked for only one thing
Now I want more, I'm asking

Needle and thread
Needle and thread
Keep me together
Keep me together
