Who you're gonna dance with? Who's you gonna smile?
When you're too shy over down with me,
Beby, yeah.

Who you're gonna dance with? We had such a good
time.
It was fun and we burned off everything around us.

It isn't what you said or how you said it
It's just the way you let yourself forget it.

It isn't what you said or how you said it
It's just the way you let yourself forget it.

Who you're gonna dance with? Is that your hand
holding mine?
Will we swing into the sound? Get down with me, baby,
yeah.
Will we swing into the sound? Get down with me, baby.

Will we swing?
