I cannot remember my birth  
First came terror then transformation  
Energy to form back to energy  
Sacred fluid of the future  
Always flowing into me  
They believed in two eternities  
Poignance in transition  
Excites the mindflower

Speeding heartbeats slow perception  
"Open!" and the choir falls  
Thoughts spin on their axes  
In an orbit 'round the mind  
Death has no reflection  
In this spectrum  
Beyond living comprehension

Have misery upon me  
Abandoned to ponder the loss  
Deranged experiments of memory

Shifting consciousness  
Without constant  
Invert the plains of fire  
Straging and brutish  
Upon the long path of posterity  
Oscillation of perception  
As I fall and rise  
Feel deep change  
And I still dream of finding a way

Insanity hangs by a friend  
But you are never always alone

Relentless valor  
And I will never regress  
Evergize and transcend the eternal  
Animate the coming sons  
Fortified to lead at dawn  
Ecstasy in every movement  
Take the searching hand

And admire a new fear
