Half-breed hand

How much does the freedom cost
How much is the faith
How much does the feeling cost
How much is the skin?
How much does the writing cost
How much is the pain?
How much does the freedom cost

Freedom - feeling - writing - freedom
Please give me a good advice
And your life, and your life

Life
And your life

I'll coming back-I promise

He never comes back
You promised that you come back
But you heard the voice
He never comes back
