A thousand years on Thra since the conjunction of the  
suns

When the brothers were divided into order and chaos  
Together eternal in polarized incarnations

Observing the cosmos through a severed millennium  
The gentle Mystics driven from the castle into exodus  
Toward a stone valley where lush melodies resonate  
The cruel vulturine beings create crustacean terrors  
Victims warped by the wrath of the deranged Skeksis

Into the black oak under the void  
An inflamed eclipse against the peaks of silver hills  
See the mountain bathing beneath the rose fire  
Converging as a sole eye, the three flames shall burn

Each orb as a unique imagination  
In the solitude of the orrery  
Physics, alchemy and existence  
Harmonizing to the pitch of the flute

Taking wing to the skies or striding on land  
Consumed at the teeth of the vile Skreesh  
Charismatic drive tempered with a quiet calm  
Good and evil interlaced in an enchanting craft

The parallels die in unison  
Insubstantial as ghosts in the mist  
The scroll of promised restoration in the ancient city  
The vivid flight of an everlasting essence

Leap onto the crystal and plunge in the dark shard  
Rebuild our shattered planet by the light of it's truth  
The living waters of dazzling stars  
Pouring forth opaque might as the arch of a bow  
Emboldened by the power of a forthcoming era  
As the celestial bodies realign  
Those who were exiled shall return to the palace  
And the pure urSkeks will leave this healed plane

Perched atop a vital time  
When the foes again unite  
A great conscience is now sworn

To usher forth the age divine  
When single shines the triple sun  
What was sundered and undone  
Shall be whole, the two made one  
By Gelfling hand, or else by none
