Nighted, mystical, soaring dungeons - demesne of the  
gallant dead  
Frozen shrines and blazing palaces, undulating opaline  
towers  
Above the coruscating majesty the stone sky casts a  
pall  
In the grim and gelid dawn of winter's foul despite  
Sorcerous winds and turbulent seas  
Rise and fall like a dirge  
Monstrous suns and fiendish storms  
An armada of cruelty and horror  
The new universe - a strange thrill - a five-sided  
equation  
Divergent paroxysm of Anaak Gigas, atavistic  
pestilence  
Bone and blood - obdurate permanence - spawn of the  
nemesis star  
A towering sphere of glowing ichor, the forest far  
beneath  
The lilies have turned to asphodel  
Panacea which was once liberation  
Anodyne into living death  
Your womb shall become your grave

Sycophants of the hybrid dictator  
Sentinels of the island empire  
The creator needs an author to justify his land  
Occulted in the lore that dragons keep  
As some lamed master bereft of theurgy  
An equinox of mordant fear  
A malignant ferocity in the ebon lake  
Beneath the revenant of the dolorous moon

Inverted abysses within the mind's lair  
A riot of raving madness and paramnesia  
Falling upward through invisible gates  
Vertigo of mirrored portals

This baffling prescence  
A suspended void of cosmic hate  
I saw the gleam of my ambition  
And I saw the machinery behind it
