Empty your pockets  
You'll need more space  
Bury the trinkets  
They'll go to waste

My eyes swell to the size of the sun  
Follow the flames  
Watching me run to the sun

Skyscrapers save us as when we scrape the skies  
Running high  
Oh yes stand stand  
Watch us when we scrape the skies  
Don't let me fall now

Hear the thunder  
Rattle my bones

I feel haunted  
I feel at home  
I can't compare  
The feel in the air  
The demons are blown  
Out of my head

Skyscrapers save us as when we scrape the skies  
Running high  
Oh yes stand stand  
Watch us when we scrape the skies  
Don't let me fall now

Don't let me fall now

I can't compare  
The feel in the air  
The demons are blown  
Out of my head
