With force I blaze the universe, my whispered lies birth
fear

I lead the rebellion against the Most Ancient, corrupting
the promise of Heaven

I am the thief that kills and destroys with the flash of
time I have

Commanding the spirits of the ether, seeking prey to
devour

I am the dragon spoken of in the tales of old
Death on black wings and eyes of blood, revered by the
cruellest of spectres and demons

I shall infect humanity with a pestilence of hate
Aurora in torment, I ravish the first light of dawn

With the hammer of evil, I crush the countenance of
purity

With a rusty, wicked blade I mutilate your flesh

Your corpse is now mine to do with as I please

Bound in your own web you claw at yourself

Riding katabatic winds into the netherworld

Where the lunar serpents oppress the shattered
rainbow

Across the mandrake fields before the labyrinths of
Algol

I am the cosmos - I am Everlasting

O how the lustrous one has fallen

A beautiful, tragic fable

A sanctuary denied, a punishment for pride

Banished for betrayal, father of the false

In the slumber of the sages

Truth appears as the effulgent sun

The legion is vanquished, imprisoned in filth

To dwell among the flies, cast into a bottomless pit

I am reality, all that exists in this creation, cold and
brutal, merciless

You are a fantasy - hope for the poor, the weak, the
suffering - moral, sanctimonious

I am the predator plundering the flock, ripping them
breathless, the rule, the alpha dominant

Lambs in peril, lost and feeble, slaughtered by the
wolves of scorn

I am every sin and blasphemy, the source of iniquity,
the perversion of mankind

I am the thorn in genesis, the salt in the wound, the
venom in the ambrosia

I took a third of the trusted Host, I crucified the only
Son at Golgotha

Tongues of Living Fire dancing upon a jade-blue
ocean, angry flames will fall

Searching for the glory that was blessed unto me,
never to rest or sleep again

An angel once, now condemned to forever wander the
skies
