Verse 1:

We were lost but then you rescued us  
Through your son, on earth you came  
You took our guilt, you took our shame away  
With our hands raised high  
We shout your praise  
Because it's by your blood, by your blood we have been  
saved

Chorus:

We will sing forever to you God  
Because of your great love  
We'll lift our lives

Verse 2:

On the ground we bow before our king  
Lifting up our hearts to you

The one who saved the one who took our blame  
With our hands raised high we sacrifice  
Because it's by your blood, by your blood we are alive

Chorus:

Bridge:

Our God is an awesome God he reigns  
From heaven above with wisdom  
Wisdom, power and love  
Our God is an awesome, awesome God

Chorus
