Verse 1:

This city, Lord, it is yours

Pre-Chorus:

So break our hearts, break our hearts

For the people who are far from you

Break our hearts

Chorus:

Teach us to love, the way you loved us

Send us out, send us out

Pour out your fire, and flow through our lives

Send us out, send us out

Verse

Pre-Chorus

Chorus

Bridge:

The heart in my chest, it is beating so fast

I can hardly contain all the hope in my veins

As I see you alive in this city arise

Like the sun shining bright

We see darkness and night run from our lives

Verse Vamp:

This city, Lord, it is yours

Chorus 2:

Teach us to love, the way you loved us

Send us out, send us out

Pour out your fire, and flow through our lives

Send us out, send us out

We'll take to the streets with fire in our hearts

Send us out, send us out
