verse:

After we had fallen
You opened up our hearts
And spoke in truth

The bags we had to carry
They were getting heavy
But not for you

pre-chorus:

You took up our crosses
And you cut all our losses
And paid for our freedom in you

chorus:

We are forgiven, covered by the blood
Of a son who was given up for us
We are your children, adopted in a love
That could take all our mess and make us clean

verse 2:

The darkness now behind us
Our hope inside a promise
You never leave

You brought us to the light God
And told us "It's alright child
Rest in me"

bridge:

Hallelujah, we are free, we are free
