## "Sink With Me"

Visit "[Sink With Me](#)" on [MotoLyrics.com](#)

Sink with me Ill sing you to sleep  
Wipe away the salt that's built up on your face  
Lets slip away well take it slowly  
Won't let the pattern of the world paint pictures for us  
Its so strange the way you look at me  
Its so strange the way you care for me  
So sing me to sleep and tuck me in my dreams  
Wake me screaming and tuck me in my dreams  
Watch the day loose its color  
Let the stars and sky be our sanctuary  
Feel your touch feel the warmth of your embrace  
Let's never take for granite all the words we love to say  
It's so strange the way you look at me  
It's so strange the way you care for me  
Watch the sun rise reflect off of your shoulders  
I'm blind  
But if I'm dreaming wake me not  
I watch the sun set on your beautiful horizons if I'm  
dreaming  
wake me not If I'm dreaming of you
