Just like it's snowing in the summertime
Something's different and I can't explain it
It's like I'm breathing in sunshine
It's taken over and I can't contain it

This love is changing me
It brought me to my knees
Now it's teaching me to fly

That's how it feels
To be with You
It's like I'm finally alive
That's how it feels to be with You
To be with You

I always thought I was invincible
I never knew that I was waiting on a breakthrough
My heart was always only half full
Until the moment that I finally found you

It's everything I dreamed
Even more it seems
To fall into your arms

That's how it feels
To be with You
It's like I'm finally alive
That's how it feels to be with You
To be with You

How it feels
My heart can't deny
How it feels

Cause how it feels
To be with You
It's like I'm finally alive
That's how it feels

How it feels
To be with you

I know my heart can't deny
How it feels to be with you

I could never get enough of how it feels
To be with you
I could never get enough of how it feels
To be with you
I could never get enough of how it feels

To be with you...
