I think I've stayed for the last time, goodbye  
Hope is so much closer to beauty than sorrow  
I think I'll leave and leave self pity to die  
Reflection is always brighter than shadow

Please come closer  
Cause I don't even touch you anymore  
Please see I'm walking in to the eye of the storm  
And I'll still come out loving you even more

Love is in the air tonight  
So just breathe

You made sure the atmosphere was thick tonight  
So this is where it begins and where it ends  
With a crack in a dark sky piercing light

Please come closer  
Cause my heart doesn't touch yours anymore  
Please see I'm walking into the eye of the storm

And I'll still come out loving you even more

Love is in the air tonight so just breathe  
Breathe my spirit breathe  
Love is in the air tonight so just breathe  
Breathe my spirit breathe

leave, leave now and don't look back  
leave, leave now and don't you look back

Please come closer  
Cause I don't even touch you anymore

Please see I'm walking in to the eye of the storm  
And I'll still come out loving you even more

Please come closer  
Cause my heart doesn't touch yours anymore

Please see I'm walking in to the eye of the storm  
And I'll still come out loving you even more
