Put the knife in the table  
Deck of cards fly across the room  
This game has ended someone need to die  
Cause i put my life on the table but forgot the risk i  
assume  
Now it's going down

Fell in love with the game  
But i forgot your name  
Go ahead please fight me  
Cause i'm not scared  
Though you stayed the same  
I forgot from where i came

I put my life on this table  
This is me and i'm lost for words  
Now is it me who needs to die  
Say something then  
Cause i'll be dead before dawn  
If your voice comes unheard  
Now i can't find ground

Fell in love with the game  
But i forgot your name  
Go ahead please fight me  
Cause i'm not scared

Though you stayed the same  
I forgot from where i came

And we both stand tall on the table  
You take me by the hand and i grab you by the throat  
And we came crashing down through the window  
On the dirt ground below  
And we wrestle in the mud and the blood and the beer  
Break my jaw i don't care  
Just stay with me, stay

Look my arms i don't want to move  
Hold me still teach me how to weep  
If it's ok with you i think i'll stay here  
For a little while

Fell in love with the game  
But i forgot your name  
Go ahead please find me  
Cause i'm not scared  
Though you stayed the same  
I forgot where i came from
