Fast lane, sane, insane this world is running
And I'm walking with a cane
Seek, seek you can be unique
But whatever you do don't let your inside out
But I've got to take a leak

And I know You're alive
And you know I will always try
I could never care less about
What this world has to offer if the price is to die
I'll keep my human spirit alive

Man I'm so weak
Come on over here I'll let you have a peek
Inside my heart cause you're the one I seek
I know I'm slow but wherever I go
I hear your steps echo

And I know You're alive
And I'll give my heart to survive
This world has nothing to offer a human soul
Reaching for the sky
So Father of light
Keep my human spirit alive

Will I try to hide away in the secret space of my heart

Will I try in time
Will I try with my feet on the ground of shadows
But my hands towards the light
Will I try in time

Your eyes
Are always there
Your eyes
Are what I came for

Your eyes
Drive away my fear
Your eyes
I could just stand there and adore

Stop just right there
Everything has to stop to steal time
For whom I want to be near
Yes I do care and I love the love we share

And I know You're alive
I'll give my heart to survive
This world has nothing to offer a human soul
Reaching for the sky
So Father of light
Keep this human spirit alive

Will I try...

Seems there is nothing to remind me of peace down
here
So how come that all I feel is joy
