Vattnet svart
varm nattbris viskar
Att jag ar naken och ny

Water black
As the moon is full
Warm nightbreeze whispers
I'm naked and new

I know you're always throwing kisses from the sky
Well, tonight I caught one
Sixteen years old
I dare to swim further out
I know you're always throwing kisses from the sky
Well, tonight I caught one

Som om man kunde
Vidrora lycka

Jag virar den runt mig
Som en filt
Det ar bara Du, jag och manen

Like joy was something you could touch
I wrap it around me
Like a blanket
It's just you, me and the moon

I know you're always throwing kisses from the sky
Well, tonight I caught one
Sixteen years old
I dare to swim further out
I know you're always throwing kisses from the sky
Well, tonight I caught one
