speechless

tragic-completely

when the one you love keeps running games with your
heart

i feel ecstatic-inside me

should i stay should i go i don't know where to start
oh no

(bridge)

cause babe you and i don't you know we got something
thats beautiful

and yes your the one even know that i know its elogical
cos baby

(chorus)

you've got something over me

right now its all a mystery

this things taking over me

no matter what you do im speechless over you

it don't make any sense at all

but im here to always take the fall

baby heres the proof

no matter what you do im speechless over you

i panic-should i let go

cause my life ain't as easy as a simple ABC

no no no no no no no

i had it-baby you know

that this feeling that i feel is just somewhere i can see

(bridge)

cause babe you and i don't you no we got something
incredible

and yes your the one even know that i know its elogical
cause baby

(chorus) x2
