(Try not to panic, try not to panic)

Born and bred through collar borderline psychotics  
Spending most of your life with pushers and alcoholics  
Don't try and analyse why we act this way  
If I could go back now(now), there's not a thing I would  
change(change)  
This is where it's from and where it's at  
I know that you can't lie but when I raise like that  
You reserve the right to keep it to yourself  
And I would too if I respected my self

(Fuck you) This is us and us is this  
Better swing and pray you don't miss  
(Fuck you) This is us and us is this  
Better swing and pray you don't miss

Fuck you and all your negativity  
It won't rub off on me  
I've got my own as you can see  
You're not alone in hating me

Tactics with a scratcher match  
Laced to slash holes in your face, bass drone so low  
Shattered vertabrae, rocks inside of your backbone  
What? You never thought I'd fucking sink this low?  
When hate, pride and jealousy's your energy  
You are your own worst (enemy)  
But in jest you disrespect and effects you  
Quick test you revolve

(Fuck you) This is us and us is this  
Better swing and pray you don't miss  
(Fuck you) This is us and us is this  
Better swing and pray you don't miss

Fuck you and all your negativity  
It won't rub off on me  
I've got my own as you can see  
You're not alone in hating me

So us is this, so us is this  
(Try not to panic, try not to panic)

Fuck you and all your negativity  
It won't rub off on me  
I've got my own as you can see  
You're not alone in hating me

Fuck you and all your negativity  
It won't rub off on me  
I've got my own as you can see  
You're not alone in hating me
