There must be something  
in the wind  
That wants me to die  
To leave all this behind  
To let go of these chains  
and let them fall  
It's like I've always known you and  
still don't know who you are

And I can hear the thunder roaring  
from a distance  
And it's me on the shoreline  
Slowly but surely  
you're moving close  
And you're pushing the water  
Yes you're pushing the water  
Please come wash over me

Waves arrive like thunder  
I'm not scared to end up under  
Wash away my heartache  
that's creeping in  
I'm not scared to loose my skin

The sky is electric tonight  
My savior from myself  
is on the move  
My long lost love  
My redeemer  
Come and remind me

The curse is broken  
Heavy burdens are lifted off  
And my soul is light as a feather  
in your storm

Waves arrive like thunder  
I'm not scared to end up under  
Wash away my heartache that's  
creeping in  
I'm not scared to loose my skin

I'm waiting for you  
I always have  
I'm waiting for you  
And I always have

I'm waiting for you  
I'm waiting for you  
I'm waiting for you
