"Come Lie Down With Me"

Visit "[Come Lie Down With Me](#)" on MotoLyrics.com

You will know me walking slowly
Through the spaces underneath
Pull me under, rolling thunder
Echoes all up and down the street

Come lie down with me and sing my song
Close your eyes and soon we will be gone

Midnight water, lovely daughter
This was just where I wanted to be
Windows open, nothing spoken
Just the sound of the rain on the sea

Come lie down with me and sing my song
Close your eyes and soon we will be gone

In the dream I was older
And I sat on the bench in the park
You came up from the ground
And you followed me into the dark

Come lie down with me and sing my song
Close your eyes and soon we will be gone
