

## Elf Power "King Of Earth"

Visit "[King Of Earth](#)" on MotoLyrics.com

King of earth with eyes of fire burned a hole inside of  
me

Took me out across the water, now his face is all I see

King of earth has always known me, always shown me  
all I've seen

Took my hand and lead me forward, knowing what was  
meant to be

King of earth with one eye open watching over all the  
time

Now he walks along beside me, tracing pictures in my  
mind

All the world is singing for me, still his voice is all I hear

Things get colder, feeling older, as the bright lights  
disappear
