It's too late  
The light has gone  
So listen to the siren song  
Calling from the sea

The day is dark  
The streets are cold  
An empty face, an empty hole  
All the voices scream

The birds above  
The worms are under me  
Cast your eyes  
To the visions of the sea

Come outside, the rain is here  
Slip away and disappear from the deep  
And the years will pull you underneath

Eat the plate, drink the cup  
Tell the fish to wake me up  
I'm crawling from the deep

And the years will pull you underneath  
Cast your eyes to visions of the sea

The wind will blow  
The ships will sail  
The birds are shrieking  
Through the air  
Calling from the sea

The blackness lifts into the sky  
Drifting past the wandering eyes  
Watching you asleep

The birds above  
The worms are under me  
Cast your eyes  
To the visions of the sea

And the years will pull you underneath

Cast your eyes to visions of the sea
