

Eli Ulery "Five Months"

Visit "[Five Months](#)" on MotoLyrics.com

She said that she loved me
And nothing could change it
I said that I loved her
I thought she was amazing
We both thought it was true love
Who wouldve guessed that forever
Would last five months

(Chorus)
Five months...
Two major holidays and a couple minor ones
The friday night football we both thought was so fun
Who wouldve guessed that forever
Would last five months

She always texted him
And I saw it coming
I did nothing to stop it
And she began running
I found out it wasn't true love
Who wouldve guessed that forever
Would last five months

(Repeat chorus 2x)

Who wouldve guessed that forever
Would last five months...
