We use to pull off highway 249
Had a cool little place where we'd go hide on a Friday
night
And get away from the city lights
We'd find a little wood and build a fire
Sonebody'd always bring a couple guitars
And we'd take turns singin' songs and watching it burn
We'd do "Ramblin' Man", "Proud Mary". and "American
Band"
We'd be singin' at the top of our lungs

Chours:

It was always the love songs every time
Made everybody feel something inside
With the fire down low held your girl real close
Made you wanna love the one you're with
Gave you the courage of that first kiss
It was the love songs always the love songs

There was always a line stuck in your head
That was said in a way you wished you could've said
But you both knew they were singin' it right to you
It felt so good those times you had
That feelin' of wanting sombody so bad
Made you weak in the heart you couldn't take being
apart
Honky tonk drinkin' songs we could do 'em all night
long

But the ones i remember the most

Chours:

It was always the love songs every time
Made everybody feel something inside
With the fire down low held your girl real close
Made you wanna love the one you wre with
Gave you the courage of that first kiss
It was the love songs always the love songs

We'd be singin' at the top of our lungs

It was always the love songs every time

Made everybody feel something inside
With the fire down low held your girl real close
Made you wanna love the one you wre with
Gave you the courage of that first kiss
It was the love songs always the love songs

Always the love songs
Always the love songs
