Remember the day not long ago
I saw you and fell in love
At first site found the one I know
Who can make my life begin

Caught in a moment
And nothing can take it away
Feels like I'm in Heaven
And I just want to stay...

I've always known to follow my heart
In my life from day to day
I'm in love I wanna be a part
Of something bigger that won't go away

Caught in a moment
And nothing can take it away
Feels like I'm in Heaven
And I just want to stay.....

My love's forever.....
Caught in a moment.....
