I she'd a lot of years and tears
In this broke down used up town
Bled my heart on these city streets
As strangers lay thier money down
I'm Home

I've never known a love
My soul was searching for
Now I look into that great big blue
Feel nothing I felt before
I'm alone

So I'll shake some hands
Chase that calling star
I'm gonna drive so fast
I can only drive so far
Gonna lay my bricks
And park my car
Gonna sow my seeds somewhere
But home is where you are
