I see now...that you're laughing
And your smiles they bring such happiness to me
It's been so long since we both were young and free
I see now...that the years have come and gone
And it's been so long but now I finally see

I see now...that its over
And there's nothing in this world that I can do
I see now and I see myself with you.....

I see now...the day you left me
And I thought that I could never love again
When I think of all the places we have been
I see now...that the years have come and gone
And it's been so long but now I finally see

I see now....that it's over
And there's nothing in this world that I can do
I see now...and I see myself with you

And I see now...that it's over
And there's nothing in this world that I can do
I see now....and I still see myself with you.....
