If I ever got that 56 that Ive always wanted
Id drive down to LA
cruise along some beach front road
playing surfin USA

If I ever won the lottery
Id buy a house in the hills
Id give some of it to charity
and Id spend the rest of it on crown

Id want you right there beside me
you know I would
right there beside me
and i would give you everything
you know I would

If I ever was a movie star
Id light up the silver screen
and everyone in hollywood
would say that im the next James Dean
Maybe ill just stay right here
get a job and settle down
have a house with a white picket fence
and grow old in this town

but Id want you right there besdies me
you know I would
right there beside me
and i would give you everything
you know I would
yea you know I would

but Id want you right there besdies me
you know I would
right there beside me
and i would give you everything
you know I would
yea you know I would
