"I'm Not Alone (Who Loves You?)"

Visit "[I'm Not Alone \(Who Loves You?\)](#)" on MotoLyrics.com

When I'm alone, I'm not alone, you're here with me
Part of my heart, part of my soul, sweet memory
I see your stars, I dream your dreams, wild and so free
I'm not alone, I'm not alone, I'm not alone

I hear guitars playing a song you used to love
Shaping the night into the night, I'm dreaming of
The night we loved until we moved heaven above
I hear guitars changing the night into our love
Who loves you? Who loves you? Who loves you?

I hear guitars playing a song you used to love
Shaping the night into the night, I'm dreaming of
The night we loved until we moved heaven above
I hear guitars changing the night into our love
Until we moved heaven above

I hear guitars changing the night into our love
Who loves you? Who loves you? Who loves you?
Who loves you? Who loves you? Who loves you?
