You see I'm hurting up inside  
And nobody is around to help  
I think I'm gona lose my mind  
Put my life up on the shelf  
I been waiting here to long  
And nobodys around to care  
That's why I have to write this song  
To tell you how my life aint fair

See I been kicked to the curb  
And the door jsut shuts to many times  
I don't no what you heard but I aint gona let it shut this  
time  
I been pushed to the side and the road on me just  
keeps getting longer  
I can't loose my pride so I only hope for stronger

Could somebody get me out  
Could somebody help me out  
Just this time(this time)  
Could somebody get me out  
Could somebody help me out  
Just this time

All the bad thisng that I done  
I just wish that I could forget  
Bus if my life could be undone I no I wont regret  
Not doing what I gota do  
I no I gotta stay true  
But yall don't even have a clue how hard it is

See I been kicked to the curb  
And the door jsut shuts to many times  
I don't no what you heard but I aint gona let it shut this  
time  
I been pushed to the side and the road on me just  
keeps getting longer  
I can't loose my pride so I only hope for stronger

Could somebody get me out  
Could somebody help me out  
Just this time(this time)

Could somebody get me out  
Could somebody help me out  
Just this time

It don't matter who you are  
If your rich your ghetto  
Life goes on you like a star  
There's no where to go  
You can run and you can hide and don't look back  
But when you run and you hide it will always come back

See I been kicked to the curb  
And the door jsut shuts to many times  
I don't no what you heard but I aint gona let it shut this  
time  
I been pushed to the side and the road on me just  
keeps getting longer  
I can't loose my pride so I only hope for stronger

Could somebody get me out  
Could somebody help me out  
Just this time(this time)  
Could somebody get me out  
Could somebody help me out  
Just this time
