"Fairytale Lullaby"

Visit "[Fairytale Lullaby](#)" on MotoLyrics.com

If you want to write a rainbow come with me
I will take you to the magic purple sea
Maybe we will find a thousand sugar fish
When you eat them they will grant your every wish

And if you want your friends to come
Then, bring them all along

If you want to catch a star then walk my way
I will take you where the night is always day
You can follow me if you really try
Maybe we will find a rainbow and teach it to fly

And if you want your friends to come
Then, bring them all along

I will take you through the magic dancing wood
And I will take you where the goblins are all good
I will take you where the elves and pixies do sing
And I will take you round the magic fairy ring

And if you want your friends to come
Then, bring them all along

By your hat and let your eyes lids close on down
Where we're going we won't need to bring your frown
You will find that all the things that I have said
Will come true when you are lying in your bed

And if you want your friends to come
Then, bring them all along
