Big little world, shouldn't have left him alone out there.
I know there's no place as big as out there.
This big little girl, wasn't really the kind who cared
but suddenly something came to her head.

And I really miss that smile of yours
and I never dreamed I would let you go
and I remember the first days in April and May
and now I want you back to stay....
I want you back to stay.

Big little boy, hadn't made any friends out there
those who also've been kicked out to the big space out
there.
Have you called your mum, do you miss your father
yeah
sitting here on the stardom to regret
that I left you there

And I really miss that smile of yours
and I never dreamed I would let you go
and I remember the first days in April and May
and now I want you back to stay....
want you back to stay.
yeah, yeah yeah...

yeah a big little boy in a big little world
thrown out by some big little girl
who didn't really think and didn't really care
until something came to her head
something came to her head

And I really miss that smile of yours
and I never dreamd I would let you go
and I remember the first days in April and May
and now I want you back to stay....
want you back to stay.
yeah yeah yeah mmmm...I want you back to stay
