In a night so long ago  
We made this eternal vow

We are brothers  
Raised by our mother's loving hand  
We are brothers  
Forever together we will stand

Since the day that you were born  
I felt your special energy  
In your body painfully torn  
They are too blind they cannot see

We are brothers  
Raised by our mother's loving hand  
We are brothers  
Forever together we will stand

Wherever you go, they listen to you  
A perfect body hides a perfect soul  
One day to come they'll follow  
Eternal truth will be our highest goal

Be aware of your fate  
Your future looks black  
Fire in the air  
Burn!

We make this eternal vow  
Through us your love will grow  
Oh mother you will see  
Your knowledge sets us free

We are brothers  
Raised by our mother's loving hand  
We are brothers  
Forever together we will stand
