We will rise  
from the ashes

Many days and many years  
I tried to live how she told me  
But I was yearning for something more  
To fill the emptiness inside

And it never was enough  
To fill me up  
And it never was enough  
For my restless mind

Phoenix from the ashes  
Our wounds will be healed  
Phoenix from the ashes  
We'll be born again and rise

Now that I have found a way  
To salvation I know I will be  
So much stronger than before  
Nothing will ever break me

And it's gonna be enough  
To fill me up  
And it's gonna be enough  
For my restless mind

Phoenix from the ashes  
Our wounds will be healed  
Phoenix from the ashes  
We'll be born again and rise

We will rise  
from the ashes
