Here it comes the joy of being alone
Im such a child on my own, just a child on my own

Cause I know it's true and I see it's right
I know it's true and I see it's right

Here it goes on happiness is home
Here it goes on happiness is home
Happiness is home
Happiness is home

And I know it's not a dream
I don't want this to be sweet
I just know it's not a dream
Im not gonna get sick of it

Cause I know it's true and I see it's right
I just know it's true and I see it's right

Here it goes on happiness is home
Here it goes on happiness is home
Here it goes on happiness is home
Here it goes on happiness is home
Happiness is home, happiness is home

Don't you say it (I would say)
Don't you say it (you talk too soon)
Don't you say it and it's already late to get back, to go
back

Here it goes on happiness is home
Happiness is home, happiness is home
Here it goes on happiness is home
Happiness is home, happiness is home
Happiness is home, happiness is home
Here it goes on, Here it goes on
Here it goes on, goes on, goes on
Is home
Is home, happiness is like home and is my home
