You did not dare say a single word  
I did not dare ask for something more  
I've kept my questions secret deep inside  
But I wish I could have let you know about  
A time when I would have said

Wait, and please stay  
Did you mean to push me away?  
Please wait and just stay  
Did you want it to be this way?

Would you want to know what I've been through?  
(Through all this time... all this time)  
Would you want to know I have missed you too  
(And I have you on my mind)  
And you've been and you will be a part of me  
(That I can't find)  
And you've been forgiven for your silence  
All this time when I would have said

Wait, and please stay  
Did you mean to push me away?  
Please wait and just say  
Is there a way that could replace  
The times you never said  
How've you been?  
Do you need anything?  
Want you to know I'm here?  
Want you to feel me near?

Yeah...and I hope  
I hope that you will find your way  
Yeah...and I hope  
I hope there will be better days

Please wait, and just stay  
(Please stay)  
Did you mean to push me away?  
Please wait, and just stay  
(Wait, just stay)  
Did you want it to be this way?

Wait, please say  
(Yeah, and I hope)  
I hope that you will find your way  
Please wait, and just stay  
(Wait, and I hope)  
I hope there will be better days

Hey hey...

Wait  
Please stay  
Just stay  
Please wait
