They bang, They drown, They look for the man  
They run, they hide, they search fraternize  
They crawl, They bite, They rise despite  
They beam, They feel, They fight, big brother

They meet billionaires, jump upon favours  
React, silent, slowly, believe  
They catch, arrest, crumble, tonight  
They dry, they dye, withdraw, grave full

Won't you beat me please  
Hope you feel some relief  
Find you knocking, knocking on the past  
In your gloomy dreams Sure of dying away

They suck, They seek, drop full and tick  
They scape trough the tunnel, satisfied, moralized  
They drug, They doubt, gnawing a mankind  
They kill, They still supervise, big brother

Hide and run fast, no time to rest  
That guy, long hair, tough boots, danger  
Communist, terrorist, enemy, nigger  
Kill the beast, rest in peace, loved God, pull the  
Trigger

Won't you shoot me Please Blame it on me  
For the fact that you Cannot avoid Feeling me  
Sure of dying away
