All definitions end  
There where yours begin  
Sweet myth of creation  
Timeless reliance  
It's clear where you're going  
But dark and fithy feed the air  
I commit myself a play  
Where there will never be a never  
This is the closest  
I ever got to it  
This is a deep gray nothing  
This is the book I never  
This is the big truth  
The whole world must know  
This is the big but  
But more than I came to know  
To a by and large picture  
I know nothing  
This is the closest  
I ever got to it  
This is a deep gray nothing  
This is the book I never read  
This is the big truth  
The whole world must know
