What shall I do, just to feel A little over zero, a little
over Now that I'm sadness Now that I'm weakness
Gonna walk like it's for ever Gonna walk because it
would save me Is this the best I can be? And my
fragility could kill me Is this the best I can give? 'Cause
I wanna break out and just live my life I wanna wake up
and find out I'm alive A saint for each bone Would be
magical It would feel so all consuming That I burn out
just like paper And my serenity it will kill me, so? Is this
the best I can be ? 'Cause I wanna break out and Is this
the best I can give just live my life I wanna wake up and
I wanna break out and just live my life find out I'm alive
find out I'm alive I wanna wake up and Is this the best I
can give Is this the best I can be? Is this the best I can
give to you?
