(Music and lyrics by Elisa Toffoli)

Tell me about the place you're from  
Tell me about the things you've done  
Tell me what you really need  
Tell me what just makes you bleed

Cause' sometimes I can't be myself I can't  
Feel inside what people say  
So I just close my ears, my eyes and I feel like shutting  
my mouth  
But I saw you were in need of help  
That is when my heart just melts  
When I see sorrow in your eyes  
There's nowhere you can hide the lies

I know why you're trapped, what makes you feel like  
that  
How you just lost your path and each fear that makes  
you act  
I know why you're trapped, what makes you feel like  
that  
How you just lost your path and each fear that holds  
you back

Oh I know how we need to change  
How strange it feels to rearrange  
What makes you want to just move on

Is why you should be already gone

I know why you're trapped, what makes you feel like  
that  
How you just lost your path and each fear that makes  
you act  
I know why you're trapped, what makes you feel like  
that, How you just lost your  
path and each fear that holds you back

But you could try now, with what you got  
Yeah you could try now, the way you are  
You could try now give it a try just a try..

I know why you're trapped, what makes you feel like  
that  
How you just lost your path and each fear that holds  
you back  
I know why you're trapped, what makes you feel like  
that  
How you just lost your path and each fear that holds  
you back
