When you say it's dead and gone  
I know you're wrong  
Cut and slash, sharpest knife  
It won't die, no  
Poison cup, drank it up  
It won't die, no  
No fire, no gun, no rope, no stone  
It won't die, oh

Why you gotta shove it in my face  
As if you put me in my place  
'Cause I don't care  
If you or me is wrong or right  
Ain't gonna spend another night,  
In your bed  
In your bed

Laws of man, are just pretend  
They ain't mine  
Love so good, love so bad  
It won't die  
Some talk too long, they know it all  
I just smile and move on  
Words ain't free, like you and me  
I don't mind

Why'd you have to be so mean and cruel,  
The dogs are loose i'm on to you  
You ball and...  
Chained together from the dawn to dusk,  
Can't call it leavin, cause it's just

I never came  
I never came  
I never came
