What shall I do? Just to feel
A little over zero and a little over
If I am my sadness
My life will fall on my head

Gonna walk like it's forever
I'm gonna walk just 'cause this could save me
And my fragility, it'll kill me

Is this the best I can be?
Is this the best I can be?
Now I'd wish to break it but just for a while

A saint for each bone would be magical
Well, everything so all consuming
Everything made on paper
If am my weakness
My life will fall on my head

Gonna walk just like a clown
Gonna walk just 'cause this could save me
And my fragility, it'll kill me

Is this the best I can be? Is this the best I can be?
Now I'd wish to break it but just for a while
Now I'd wish to break it but just
Now I'd wish to break it but just
