I don't wanna hear another plastic love song  
And I don't need no more triviality  
Cause I know there is more  
That love could be

But you know that's not to say that I know just what I  
want out of  
life  
It doesn't mean that I feel hopeful everyday I'm alive  
But when you smiled at me I felt many things  
Like lust and fear and dreams

And though it could hurt I've gotta try it anyway  
When the door is flung wide open you don't stay inside  
your room all  
day  
You go where there's a chance of losing the awful  
empty lie  
That it's better not to need anyone than to take the  
crazy uncertain  
ride

And it's a new kiss and I'm flying out there  
A great kiss and I'm crying in the streets  
It's a killer kiss under a friendly rain  
Hear me now sell me joy and pain  
But at the best price you can

I don't know much more than your first name  
But I might stick around till I know everything  
Because who we could be remains to be seen

Is it the joke now or the dream

And I like the new beginning the slow show and tell  
Sometimes I think the expectation is sweeter than the  
love itself  
It's alright I'm gonna take my time I'm gonna take your  
mystery  
You know it's simple don't you try to ignore take your  
freedom when  
you're given the key

Like a new kiss and I'm flying out there  
A great kiss and I'm crying in the streets  
It's a killer kiss under a friendly rain  
Hear me now sell me joy and pain  
But at the best price you can

Like a new kiss and I'm flying out there  
A great kiss and I'm crying in the streets  
It's a killer kiss under a friendly rain  
Hear me now sell me joy and pain

Like a new kiss and I'm flying out there  
A great kiss and I'm crying in the streets  
It's a killer kiss under a friendly rain  
Hear me now sell me joy and pain
