

Elisa "Rock Your Soul"

Visit "[Rock Your Soul](#)" on [MotoLyrics.com](#)

The more I think the less I see
When I'm able to walk
I'm the queen of my world
I let it rain on my skin
I don't let myself down
I don't let myself down
Wanna be one with you
I wanna be one with you

The more I think the less I do
When I'm able to talk
I'm the queen of my world
I let it rain on my skin
I don't ask myself why
I don't ask myself why
I wanna be one with you
I wanna be one with you

All I want is to rock your soul
All I want is to rock your soul
All I want is to rock your soul

All I want is to rock your soul
All I want is to rock your soul
All I want is to rock your soul

I feel closer to the clouds
I'm touching all the highest leaves
On top of the trees
My desires release
So we let it rain...
On our skin
You're holding my hand
I'm holding your life
'N I feel like I'm one with you
I'm be one with you, you

All I want is to rock your soul
All I want is to rock your soul
All I want is to rock your soul

All I want is to rock your soul

All I want is to rock your soul
All I want is to rock your soul

I think I have to give you something more than words
Is that something
So I show you my dreams
To make 'em my dreams
Won't you just be?
I am what you see

All I want is to rock your soul
All I want is to rock your soul
All I want is to rock your soul

And all I want is to rock your soul
All I want is to rock your soul
All I want is to rock your soul

Together with the Sun
We shine (all the way) we shine... we shine...
Together with the rain
We fall (in the air) we fall... we fall...
Together with the Sun
We shine (all the way) we shine... we shine...
Together with the rain and the Sun
With the rain, the rain and the Sun... we are
Together with the rain and the Sun
Only with the rain, with the rain and the Sun...
And the Sun... and the Sun...
