There are shadow zones all around

We danced thick as trees still prisoners of wood  
And in between the smoke and vines on the dancefloor  
there he stood  
I could see in your eyes you're the one to burn it all  
down  
And I want to be there yes I want to be there

So I start the hunt your scent's in my mouth and my  
thoughts are in  
the mud  
There's quicksand all around me but your rhythm's  
filled my blood  
I can see by your moves you're the one to burn it all  
down  
And I want to be there yes I want to be there

Here I feel your breath but I can't see you oh I guess  
you're here but  
I can't touch you  
Here I feel your breath but I can't see you oh I guess  
you're here but  
I can't touch you

There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer

Animals encircle trading fur for skin  
And I've been told you're too much for me but this  
camouflage is  
wearing thin  
I can tell by your touch you're the one to burn it all down  
And I want to be there yes I want to be there

Here I feel your breath but I can't see you oh I guess  
you're here but  
I can't touch you  
Here I feel your breath but I can't see you oh I guess  
you're here but

I can't touch you

There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer

Shadows are blindfolds and the pulse is so extreme  
Your skin's like heaven down on me there is nothing in  
between  
I can feel from your hips you're the one to burn it all  
down  
And I want to be there yeah I wanna be there

Here I feel your breath but I can't see you oh I guess  
you're here but  
I can't touch you  
Here I feel your breath but I can't see you oh I guess  
you're here but  
I can't touch you

There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer  
There's a jungle in motion it looks like a dancer
