Tic tac  
Tic tac

Run up those stairs  
Cause someone's waiting  
You'd better run up those stairs  
Somebody's waiting  
You're so tired after you've worked  
But you know you can miss things  
It's so powerful and it will take  
Troubles out of your head  
It's so powerful and it will take  
Troubles out of your head  
You're rushing

This is the best lover  
Music is the best lover  
It's the best lover, the best lover

You're thinking in a strange way  
You're so afraid of problems

You're thinking in a strange way  
You're so afraid of problems  
You're afraid of problems  
You're so scared about the ground  
And what's so scared about the ground

Tic tac  
Tic tac

You run up those stairs  
Somebody's waiting  
You'd better run up those stairs  
Somebody's waiting  
You're so tired after you've worked  
But you know you can miss things  
You're so tired after you've worked  
But you know you can miss things
