"Don't Say"

Visit "[Don't Say](#)" on MotoLyrics.com

Your love just came right into my life
Each loving moment felt so right
And now your cheating with my best friend
Your foolish cries for love will never end
I used to think that our love would last
Remember times we shared in the past
How could you let it end this way
Your time is over, don't want you to stay

Chorus:

Don't Say that you need me baby
These games of make believe just can't go on
Don't Say that you need me honey
I just don't need your love anymore

Each time that you look into my eyes
You say you love me but you tell me lies
We can't go on and on and live like this
You think you'll keep me, with one sweet kiss
I used to think that our love would last
Remember times we shared in the past
How could you let it end this way
Your time is over, don't want you to stay

Chorus (till end)
